## **Metro District Considers Giving Dog Parks a Facelift**

Socialization, exercise and training. These are just three reasons why people bring their dogs to dog parks in Highlands Ranch. Highlands Ranch Metro District's four dog parks provide a place to visit with people and have fun with your pet.

More than ten years ago the Metro District became one of the first in the area to provide dog parks in the community. Since that time dog parks have grown in popularity and the number of dog park visitors has steadily increased. Today, the Metro District is considering making improvements at the dog parks in Highlands Ranch to provide a better experience for both dogs and their owners.

Dog park visitors and the community are invited to participate in an online survey to provide input on amenities and upgrades you'd like to see at dog parks in Highlands Ranch. Would you like a shelter, benches or a water feature so your pet can play and cool off? Make your suggestions by participating in the survey at [www.highlandsranch.org](http://www.highlandsranch.org) and navigating to the Parks & Open Space page. A link to the survey is provided on the right-hand side of the page.

*Founded in 1981 as the local government in Highlands Ranch, Colorado, the Metro District provides a variety of municipal services to this planned community of 90,000 people. Learn more about the Metro District at [www.highlandsranch.org](http://www.highlandsranch.org)*
