Fact Sheet

Bimonthly Water Billing Changes

As part of our ongoing efforts to provide the citizens of Highlands Ranch the most cost effective quality service, we periodically review our meter reading routes to minimize costs associated with the meter reading process. Recently, we have changed 14 meter reading routes. The result of this change is that those reads will be either one week earlier or one week later. The service availability charge will not be impacted, as that fee is calculated at \$150 per year divided by the six bimonthly billings. There may be minimal water and wastewater impacts as they pertain to the allotted winter water budget, which will be corrected as necessary.
